Enjoy your food, but eat less

You can enjoy your meals while making small shifts to the amounts and types of food on your plate. Healthy meals start with a variety and balance of foods from each food group. Aim to consume less sodium, saturated fat, and added sugars.

1 Get to know the foods you eat
Keep track of the food and beverages you consume by using [SuperTracker](#). This tool gives you tips on how to make healthier food choices.

2 Take your time
Be mindful to eat slowly, enjoy the taste and textures, and pay attention to how you feel. Use hunger and fullness cues to recognize when to eat and when you've had enough.

3 Use a smaller plate
Use a smaller plate at meals to help with portion control. That way you can finish your entire plate and feel satisfied without overeating.

4 If you eat out, choose healthier options
Many restaurants have nutrition information posted online or on menus. Choose entrees that are baked or broiled instead of fried. Ask for dressings or sauces on the side.

5 Satisfy your sweet tooth in a healthy way
Indulge in a naturally sweet dessert dish—fruit!
Mix berries with fat-free yogurt or enjoy fruit on its own, such as melon or pineapple.

6 Choose to eat some foods more or less often
Eat more vegetables, fruits, whole grains, and low-fat dairy products. Cut back on foods such as pizza, ice cream, cookies, and cake.

7 Create your own meal plan
Plan out your meals in advance. Use [Sample Meal Plans](#) on SuperTracker for ideas to plan healthy meals.

8 Sip smarter
Drink water or other calorie-free beverages, such as unsweetened tea or club soda, or other low-calorie beverages when you are thirsty. Sugar-sweetened beverages contain added sugar and are high in calories.

9 Compare foods
Check out the [Food-A-Pedia](#) to look up and compare nutrition information for more than 8,000 foods.

10 Make sweets a once-in-a-while treat
Treat yourself on special occasions. When you eat foods like pie, cake, brownies, cookies, and candy, choose the smallest size or consider sharing it.
