Healthy Chinese Cuisine
Using Fruits and Vegetables

Foreword

Being overweight and obese has become a major health problem in California, including our Chinese community. According to the California Behavioral Risk Factor Survey¹, over forty percent of Asian American males, and thirty percent of females in California are overweight!. This has led to an increase in such diet-related disorders as diabetes, obesity, and high blood pressure.*

Eighty percent of Asian American children and fifty-six percent of Asian American adults are not eating enough fruits and vegetables^{2,3}. Eating at least 2 to 6½ cups of fruits and vegetables (depending on your age, gender and activity level), and getting 30 to 60 minutes of physical activity every day, may help to lower our risk of becoming overweight and our risk of cancer, heart disease, Type 2 diabetes and obesity⁴.

This is the first booklet available in Chinese to help increase fruit and vegetable consumption and provide helpful tips on staying active. This easy method to improve intake of fruits and vegetables is enhanced by celebrity chef Martin Yan and nutritionist Catherine Wong from Chinatown Public Health Center, who share their secrets for healthy eating and cooking using authentic Chinese recipes.

I am pleased to recommend this well written and illustrated booklet that will help keep you healthy.

Sincerely,

序言

在加州，包括華人社區，身體過重與肥胖症已成為主要的健康問題。加州生活習慣與患病因素調查顯示：百份之四十亞裔*男士和百份之三十亞裔*女士都屬身體過重¹。身體過重可導致患上與飲食有關連的症狀例如：糖尿病、肥胖症、和高血壓。

研究亦指出百份之八十亞裔兒童及百份之五十六亞裔成年人的水果蔬菜進食量都不足夠^{2,3}。如果每天最少進食 2 杯至 6 杯半的水果蔬菜，加上 30 至 60 分鐘的體力活動，便能減少身體過重、患癌、心臟病、第二型糖尿病和肥胖症的危機⁴。

這是第一本提供實心得協助讀者多吃蔬果，並保持身體活躍的中文手冊。由名廚甄文達和營養師黃嘉慧向讀者分享他們的健康飲食與烹飪心得、提供中式食譜，多吃蔬果實在不難。

本人十分樂意推薦這本圖文並茂的手冊，祝您健康長壽。

Foreword

*Through the **Network for a Healthy California**, we have worked to promote fruit and vegetable intake and increased physical activity for over 15 years. That is because eating nutritious foods, like fruits and vegetables, and being physically active, lowers the risk of cancer, Type 2 diabetes, stroke and unhealthy body weight. In addition, when you eat fruits and vegetables, like those found in the traditional Chinese diet, and stay active, you not only improve your physical health, but your mental and emotional health as well.*

Use this cookbook to help you prepare healthy and traditional home-cooked Chinese meals for you and your family. Look to the meal planning guide to see if your family is eating enough fruits and vegetables to promote good health. Refer to the physical activity suggestions to see how you and your family can include the daily physical activity that is so important in maintaining whole body wellness.

The traditional Chinese diet is a wonderful example of how fresh ingredients, like fruits and vegetables, can be combined for a flavorful and healthful meal. Use this cookbook to help you preserve those benefits and to reduce the risk of chronic disease. Look for more dietary information in the future specifically designed for the Asian American Pacific Islander community. Your health is worth preserving!

What Should I Eat Every Day?

This is the recommendation for food intake and physical activity according to the new food pyramid and the dietary guidelines by the U.S. Department of Agriculture and the U.S. Department of Health and Human Services in 2005.

GRAINS
Make half of your grains whole

Eat at least 3 oz. of whole grain cereals, breads, crackers, rice, or pasta every day.

1 oz. is about:

- 1 slice of bread, or
- 1 cup of breakfast cereal, or
- ½ cup of cooked rice, cereal, or pasta

VEGETABLES
Vary your veggies

Eat more dark-green veggies like broccoli, spinach, and other dark leafy greens.

Eat more orange vegetables like carrots and sweet potatoes.

Eat more dry beans and peas like pinto beans, kidney beans, and lentils.

FRUITS
Focus on fruits

Eat a variety of fruit.

Choose fresh, frozen, canned, or dried fruit.

Go easy on fruit juices.

MILK
Get your calcium-rich foods

Go low-fat or fat-free when you choose milk, yogurt, and other milk products.

If you don't or can't consume milk, choose lactose-free products or other calcium sources such as fortified foods and beverages.

MEAT & BEANS
Go lean with protein

Choose low-fat or lean meats, poultry, and fish.

Bake it, broil it, or grill it.

Vary your protein routine – choose more beans, peas, nuts and seeds.

1 oz = a piece of meat, fish, or skinless chicken the size of a mahjong tile, or 1 egg, or ¼ cup tofu, or ¼ cooked dry beans

For a 2,000-calorie diet, you need the amounts below from each food group. To find the amounts that are right for you, go to MyPyramid.gov.

Eat 6 oz. every day

Eat 2½ cups every day

Eat 2 cups every day

Get 3 cups every day

Eat 5½ oz. every day

Find your balance between food and physical activity

- Stay within your daily calorie needs.
- Be physically active for at least 30 minutes most days of the week.
- About 60 minutes a day of physical activity may be needed to prevent weight gain in adults.
- For sustaining weight loss, at least 60 to 90 minutes a day of physical activity may be required.
- Children and teenagers should be physically active for 60 minutes every day, or most days.

Know the limits on fats, sugar, cholesterol and salt (sodium)

- Make most of your fat sources from fish, nuts, and vegetable oils.
- Limit solid fats like butter, stick margarine, shortening, and lard, as well as foods that contain these.
- Check the Nutrition Facts label to keep saturated fats, trans-fats, cholesterol, and sodium low.
- Choose food and beverages low in added sugar. Added sugar contributes calories with few, if any, nutrients.

Make Supreme Stock to enhance flavor in cooking

“Supreme stock” is used frequently in Chinese cooking; this kind of stock is often made in advance, and used for soup base. “Supreme stock” is usually made with meat and poultry and boiled for at least 3 hours until the flavor is intensified.

You can make your own: (recipe makes 15 cups of stock)

- In a large stock pot, combine 2 pounds lean pork, 1 whole chicken, and enough water to cover at least 4 inches above the ingredients. Cook over high heat. When the water boils, reduce to medium-low heat and simmer for 3 hours. Add 1 teaspoon salt, remove from heat and let stand to cool.
- With a slotted spoon, remove the pork and chicken from the stock. Divide the stock into several smaller, shallow containers and refrigerate for at least 6 hours, or until fat becomes solid on surface of stock. Remove the fat from the stock.
- Use the stock as soup base, sauces and gravies, or to add flavor to vegetable dishes.
- Freeze the stock in ice cube trays or small containers and store in the freezer for future use. Frozen stock can be kept in freezer up to 2 months.
- Try the different recipes using the Supreme Stock on pages 32, 34, 36 and 40.

To prevent food borne illness, the stock should be separated into smaller shallow containers and be refrigerated immediately.

多吃蔬果心得

- 早餐加水果或不超過 1 杯純果汁
- 用蔬果做小吃
- 正餐儘量多吃蔬菜，可減少飯量
- 菜餚和飯裡多加蔬菜
- 用家製上湯煮製蔬菜加添味道，請試以下的上湯食譜
- 每餐選兩種或以上不同顏色的蔬菜
- 用水果作甜品
- 可用新鮮或冷凍水果，加入低脂或脫脂牛奶，放入攪拌機，攪拌成「奶昔」或果凍作飲品
- 做三文治加蔬菜如：青瓜、蕃茄、甜椒、豆芽

香蕉莓果果昔

材料：

- 半隻香蕉，剝皮、切片
- 1 杯未加糖的冰凍莓果（草莓、藍莓和/或黑莓）
- 半杯 1% 低脂或脫脂奶或嫩豆腐
- 半杯 100% 橙汁

準備：

1. 把所有材料放入攪拌器。蓋緊蓋子。
2. 拌勻。如果混合物太稠，可加半杯冷水再拌。
3. 倒入 2 個杯中即可。

自製上湯為菜餚添味道

上湯或高湯常用於中式烹飪：上湯預先做好，用作「湯底」或調味的汁料。上湯一般用肉或雞熬 3 小時以上，濃化肉味。

您可自己熬製上湯（這食譜可造 15 杯上湯）：

- 在大鍋裡放下 2 磅瘦豬肉、1 隻雞，下水蓋過材料面上 4 吋。高溫煮沸，水沸後轉慢火熬 3 小時。下 1 茶匙鹽，關火待涼。
- 用罩籬把肉料取出，將上湯分盛在不同的盒子或容器裡，置冰箱 6 小時後待油脂凝結浮在湯面上，取出將凝結的油脂撇除。
- 上湯可用來煮湯、做芡汁、肉汁、或給蔬菜調味。
- 把上湯盛在冰盤或小容器裡，放冰庫裡冰藏以後用。藏在冰庫的上湯可貯存達 2 個月。
- 請試用本書裡各款採用上湯的食譜，第 33，35，37，和 41 頁。

以防食物中毒，煮好的上湯應分開盛在盒子或容器裡，立刻置冰箱裡貯存。

Frozen Tofu in Supreme Stock

Makes 4 servings (1 serving = 4 slices each of tofu & ham and 1/2 cup cooked broccoli)

Ingredients:

- 4 pieces 2 inches x 2 inches firm tofu
(frozen overnight or 8 hours ahead of time)
- 16 slices of ham, extra lean, 2 inches x 2 inches
(approximately 5 oz total weight)

7. Garnish the tofu and ham arrangement with broccoli, pour gravy on top and serve.

Nutrition tips:

Freezing the tofu produces a spongy and meaty texture.

Stock can enhance the flavor of vegetables and low fat dishes (refer to page 22 for direction on making stock).

Vegetable and Chicken Dumplings

Makes 10 servings (1 serving = 6 dumplings)

Ingredients:

60 thin wonton wrappers

2 pounds Chinese broccoli or 1½ pounds tender greens

Filling

½ pound skinless, boneless chicken breast, finely chopped

1 cup finely chopped bok choy leaves

½ cup finely chopped jicama or bok choy stalks

1 teaspoon sesame seed oil

½ teaspoon salt

3 teaspoons cornstarch

1 egg white

Instruction:

1. In a large bowl, combine filling ingredients, and mix well.
2. To make each dumpling, place 1 teaspoon filling in a wonton skin, fold in half, pinch edges to seal the dumpling. Repeat with remaining filling and wonton skins.

Ingredients:

- 1¼ cups sugar
- ¼ cup vegetable oil
- 2 eggs
- 2 cups flour
- 1 teaspoon salt
- 1 teaspoon cinnamon
- 1 teaspoon baking soda
- 4 cups diced apple chunks
- ¼ cup applesauce

5. Coat a baking pan with vegetable oil spray, and pour in batter. Bake until done, about 1 hour.
6. Place apple slices on top of apple cake and serve.

Nutrition tips:

As a rule, half of the amount of fat in a dessert recipe can be replaced with applesauce or a puree of another fruit, such as prune puree. The result is a very moist, low-fat cake enhanced by the flavor of fresh and nutritious apples.

The amount of sugar in this recipe has been reduced by one third, as compared to the original recipe. Use vegetable oil spray to prevent the cake from sticking to the pan.
